

Outreach Drafts And Follow-Up

Section export from the Annie Hawkins Discovery Dossier package. Review-only until source notes and handoff gates clear.

Outreach Drafts And Follow-Up

Outreach status: Blocked Compliance review: Needs Compliance Review No-auto-send guard: Enabled

Draft assets:

- Unclassified associate call script (draft, en) — Ask a non-target contact for a better way to reach the heir.
- Neighbor call script (draft, en) — Ask a neighbor for occupancy or family-contact clues after approval.
- Relative call script (draft, mixed) — Confirm family-tree information with a possible relative.
- Owner call script (draft, mixed) — Open a manual conversation with a possible owner or heir.
- Only-heir call script (draft, en) — Discuss awareness, probate friction, and possible liquidation with an heir after review.
- Closing call script (draft, en) — Explain process, timeline, and expected payout after manager/operator review.
- Text message template (draft, en) — Manual text follow-up after approval; never auto-send.
- Email follow-up template (draft, en) — Manual written summary after a reviewed call.
- Offer letter template (draft, en) — Draft offer letter only after report, underwriting, and compliance review.

Readiness blockers:

- Property, deed, tax, probate, or heirship review flags still need to be cleared.
- Offer/profit underwriting still needs operator review.
- Completed lead report still needs operator review.
- Compliance approval is missing for every outreach script.
- Approved disclaimers are not attached to script, text, email, or offer-letter drafts.
- Contact data is still placeholder-only until enrichment or manual capture is reviewed.

- Live calls, texts, emails, and offer letters are disabled by the no-auto-send guard.

Manual follow-up tasks:

- Call lead - attempt 1 — Call the selected contact in the morning window after the report, contact data, and script are reviewed.
- Call lead - attempt 2 — Call again in the afternoon window and record whether the contact answered, declined, or needs another follow-up.
- Call lead - attempt 3 — Make the third manual call across the multi-day retry window before manager review.
- Leave voicemail and prepare text follow-up — Leave voicemail and prepare a text only after the script and disclaimer are approved for manual use.
- Review all contact options — Check all known relatives, owners, and contact placeholders before deciding which person or number to call next.
- Escalate to Joshua — Send the reviewed lead packet, call notes, and open questions to Joshua before any offer or external document is used.

These scripts are draft reference material only. Calls, texts, emails, letters, and offers remain manual and blocked until compliance/operator approval.
